

PINCERS

The Pincers are ergonomically designed with long legs for right amount of leverage. They are induction hardened at the curved jaws which are very suitable for gripping and extraction. These are manufactured from both Carbon and Alloy steel, painted in black textured powder coat finish and are available with or without non slip PVC insulation.

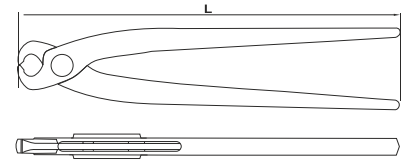

Tower Pincer / Carpenter Pincer / End Cutting Nipper.

MORE RELIABLE

515 Tower Pincer

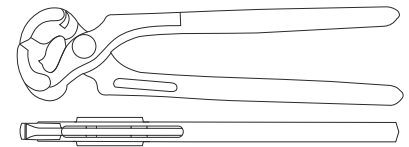

- Drop Forged
