Sr. HARBANS LAL SHARMA
Founder of Group

H.R. INDUSTRIES UNIT-I

H.R INDUSTRIES UNIT-II

H.R INDUSTRIES UNIT-III

FOODCOAST INTERNATIONAL

The solid foundation of this Group was laid in 1952 by a futuristic visionary, an ex-Air Force Officer, Mr. Harbans Lal Sharma. We are manufacturing world class HAND TOOLS from the day of its inception. The company is moving ahead under the leadership of Mr. Suresh Sharma and Mr. Sushant Sharma. We have been setting the benchmarks in the industry, having based ourselves on the tenets to consistent quality at every step of manufacturing and continuous upgradation of production facilities. We have endured to build a lasting relationship with our customer. The highly professional team with vast experience enables us to lead the way in the industry with quality and commitment as our core strength.

H.R. Industries has developed an excellent infrastructure with latest machinery, CAD/CAM System, CNC Tool Room, modern Research & Development department, well equipped Testing Laboratory, Heat Treatment Plants and well managed packing lines. Its main products like all kind of Spanners, Adjustable Wrenches, Pliers, Tower Pincers, Carpenter Pincers, Vices, are produced in environment friendly conditions. The company has been selling these products worldwide in robust and attractive packing.

Commitment to excellence have earned this company global recognition. HR Industries is fully ISO certified, BSCI certified and accredited to use "GS" Quality Testing Mark from Germany on spanners. HR Industries is Government of India recognized export house and stand tall with the largest hand tools exports from India. HR Industries will continue with its efforts to maintain the level of excellence to deliver wide range of Hand tools. The entire team of HR Industries has one common goal that is best quality and customer satisfaction. Capable of providing a comprehensive array of hand tools, H.R. Industries will always be privileged to connect and enhance relationship with its International clients

Our unwavering commitment to exceptional service and building enduring relationships reflects our dedication in providing tools that exceed your expectations.

Our honesty, sincerity and loyalty are the attributes that have contributed greatly towards the success of the company.

Mr. SURESH SHARMA
Managing Director

Our dedication to quality craftsmanship and engineering excellence has been the driving force behind our products. We strive to implement our knowledge and experience to improve our products. We make constant endeavor to upgrade our infrastructure.

Our commitment to precision engineering, durability and innovation has earned us a global recognition.

Mr. SUSHANT SHARMA
Director Operations

HR Industries has an excellent infrastructure with international accreditations & certifications in the fields of operations, management and environment friendliness. The state-of-the-art manufacturing CNC and forging lines, the most modern R&D facilities, well equipped testing laboratory, the unique electroplating unit and vast machining shop floor assist us in efficiently delivering excellence to the utmost satisfaction of our customers.

spanners

Spanners or Wrenches are used to provide grip & applying torque to turn fasteners (nuts & bolts).

They are forged from the finest quality Chrome Vanadium Steel fully hardened & tempered for strength and as per DIN/ANSI standards. Treated with utmost care they have an excellent well ground and smooth easy grip surface. Spanners are manufactured in both mm and inch sizes and available in different finishes. Ring profile does not damage or distort bolt edges and there is maximum transfer of evenly distributed force all around. The open end spanner also has an optimized design for maximum torque transmission.

Recessed Panel/Cold Stamped / Elliptical Pattern/Ratchet/ Raised Panel/S Type/C Type/Stubby/Extra Long/Deep offset /Flare Nut/Single open end/Tubular Box/Four way wheel.

Bi-hexagon Ring End Spanner - Cold Stamped

Product Code: 113

- Drop Forged
- CRV Chrome Vanadium Steel
- Hardened & Tempered
- Nickel Chrome Plated
- DIN 838

Finish Options

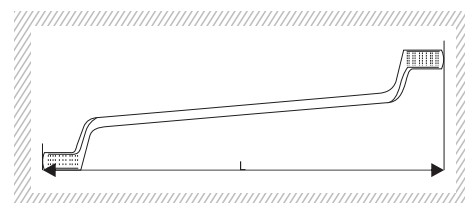

- Matt
- Head Polished

Available

- In different sales packing. Ref: Page No. 63
- With Private Logo (MOQ Required)

adjustable wrench

Movable Jaw, allowing to be used with different sizes of fastener head (nut, bolt etc.).

Adjustable Wrench is used to hold or turn pipes or circular bars. These wrench has movable jaws, one of which you can adjust to get the size you need. To be used with different sizes of fastener head (nut, bolts etc.). Made of Chrome Vanadium / Carbon Steel these wrenches are drop forged to gain maximum strength. With perfect design these wrenches produce maximum torque transmission.

pliers

Pliers are used to hold object firmly.

They are made from Chrome Vanadium / Carbon Steel, drop forged and precision hardened. Having slip resistant broached pivot recess, they fit in snugly in the palm of the user and allow to be executed in confined spaces. These pliers sturdily grip pipes, nuts & bolts with relative ease.

pincers

Pincers are used to Pinch, Cut or Pull an object.

The Pincers are ergonomically designed with long legs for right amount of leverage. They are induction hardened at the curved jaws which are very suitable for gripping and extraction. These are manufactured from both Carbon and Alloy steel, painted in black textured powder coated finish and are available with or without non slip PVC insulation.

Tower Pincer / Carpenter Pincer / End Cutting Nipper.
